

ECLYPTIX

The name Ecliptix is derived from a term meaning, “the great circle of the sun’s path among the stars.” The glistening crystals encompassed by a circular shade are reminiscent of stars in the sky. The style of Ecliptix is an attractive combination of traditional and contemporary. The balance of the shade and crystal form a gentle, downward light with breathtaking ambiance.

El nombre Ecliptix se deriva de un término que significa “el gran círculo que dibuja la trayectoria del sol entre las estrellas.” El brillo de los cristales contenidos en esta luminaria circular con pantalla evoca a las estrellas del firmamento. El estilo de Ecliptix podría definirse como una atractiva combinación de estilo tradicional y contemporáneo. El equilibrio entre la pantalla y el cristal da lugar a una luz descendiente y sutil que crea un ambiente impresionante.

Le nom Ecliptix provient d’un terme signifiant « le grand cercle représentant la course du soleil parmi les étoiles ». Les cristaux scintillants intégrés dans un lustre circulaire et ombré évoquent les étoiles dans le ciel. Le style d’Ecliptix est une combinaison séduisante de tradition et de contemporain. L’équilibre entre l’ombre et le cristal génère une lumière douce et descendante, et une ambiance exceptionnelle.

Ecliptix bezeichnet die „große Bahn der Sonne vor dem Hintergrund der Fixsterne“. Der edle Rundschirm dieses Lusters bietet den perfekten Rahmen für funkelnde Kristalle, die Assoziationen an helle Sternbilder am nachtklaren Firmament wecken. In Ecliptix verschmelzen klassischer Charme und eine zeitgenössische Optik zu einer stilvollen Einheit. Die ausgewogene Kombination von Leuchtschirm und Kristall sorgt an jedem Ort für ein atemberaubend schönes Ambiente.

Il nome Ecliptix deriva da un termine che significa: “Il grande cerchio tracciato dal sole tra le stelle”. I luccicanti cristalli abbracciati da un lampadario fumé circolare ricordano le stelle nel cielo. Lo stile di Ecliptix è un’attraente combinazione di tradizione e contemporaneità. L’armonia di ombre e cristalli genera una delicata luce che, rivolta verso il basso, crea un’atmosfera incredibilmente suggestiva.

Название Ecliptix происходит от термина, который означает «Великое шествие Солнца среди звёзд». Кристаллы, сверкающие под круглым сводом затенённой люстры, подобны звёздам на небосклоне. В стиле Ecliptix традиции прекрасно сочетаются с современностью. Игра тени и вертикального света создаёт атмосферу, от которой захватывает дух.
